INDEPENDENT AUDITOR'S REPORT

The Board of Directors
New York State Urban Development
Corporation and Subsidiaries:

We have audited the accompanying consolidated balance sheet of New York State Urban Development Corporation and Subsidiaries (the "Corporation"), a component unit of the State of New York, as of March 31, 2008, and the related consolidated statements of revenue, expenses and changes in net assets and cash flows for the year then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. The consolidated financial statements of New York State Urban Development Corporation and Subsidiaries as of March 31, 2007, were audited by other auditors whose report dated June 27, 2007 expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of New York State Urban Development Corporation and Subsidiaries as of March 31, 2008, and the results of their operations and their cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.
