## Commissioner's Message

April 1, 2015

Attached is the first annual report on START-UP NY, covering the program's activity from January 1, 2014 through December 31, 2014. The inaugural year was significant in its accomplishments, building a strong foundation and momentum for the program to succeed now and for years to come.

The first year of any new economic development initiative is critical to its long term success: the fundamentals for implementing and administering the program must be established; extensive outreach to potential program participants must be conducted; and ensuring awareness of the program and its benefits to businesses and other stakeholders must be accomplished as well.

An integral component of the START-UP NY legislation is the requirement that colleges and universities submit comprehensive plans and designate vacant space as Tax-Free Areas. Only institutions with approved plans may sponsor a business for the program; therefore, the development and adoption of a START-UP NY campus plan is the all important first step towards transforming schools into economic engines.

The first campus plans were approved in March 2014 and by the end of the year 62 campus plans were approved by the State. In 2014, 72 percent of public colleges and universities (SUNY, CUNY and community colleges) had START-UP NY plans approved, establishing 356 Tax-Free Areas across New York State. When pending applications are included, there is a nearly 95 percent participation rate for our public colleges and universities.

By the end of 2015, we anticipate that almost every public higher education institution in New York State will be participating in START-UP NY at some level. Currently, 15 private colleges or universities have approved campus plans and designated Tax-Free Areas with many more in progress that will soon seek final approval.

The tax implications to the companies and cost to New York State for 2014 demonstrate that the program is in its early stages. The majority of the approved companies in 2014 were approved in the second half of the year, so most tax benefits will begin accruing in 2015.

Last year, the State received 92 applications from businesses looking to participate in START-UP NY. After admitting the first company in May, the State approved 54 businesses to join the program in 2014. These companies committed to create nearly 2,100 net new jobs and invest \$91 million over five years. To date, the State has approved 93 business applications sponsored by 21 different colleges and universities – which is a rapid start for a brand new, first of its kind program.

The primary goal of START-UP NY is to create jobs by stimulating growth in business, be it new companies, expanding New York companies or companies new to New York. Key to this goal is to dispel the state's reputation as a high tax state and send a clear message that New York is open for business.

The promotional campaign set into motion in late 2013 did just that. Today, START-UP NY is a brand known not only throughout the state and across the nation, but around the world. We are talking to and successfully attracting businesses that previously would have never considered New York as a serious option for their new venture, expansion or relocation. There is a buzz in the business community and the volume of interest has been significant. The program has built momentum that will drive participation – and the associated benefits to New York State – onward and upward for years to come.

With START-UP NY establishing a strong foundation and building considerable momentum in just its first year, we anticipate even greater interest from the business community and expect to see more than twice as much activity – new jobs and investment – in 2015.

Sincerely,

Howard A. Zemsky,

President & CEO, Empire State Development  
Commissioner, NYS Department of Economic Development

## Introduction

START-UP NY (**S**UNY Tax-Free Areas to **R**evitalize and **T**ransform **U**pstate **N**ew **Y**ork) is an initiative created by Governor Andrew M. Cuomo to encourage businesses to start up, relocate to or expand in New York State through affiliations with public and private colleges, universities and community colleges. The program provides a number of tax benefits to eligible companies, including the opportunity to operate state and local tax-free on or near participating academic campuses, while also allowing new employees of participating business to pay no state or local personal income taxes.

Beyond the business impact specific to the START-UP NY program are the powerful perception-related benefits a tax-free program brings to New York's overall business attraction efforts. Designed to address the concern that New York is a "high-tax" state, START-UP NY also provides the basis for business leaders and entrepreneurs to look more broadly at the programs and incentives the State offers.

The START-UP NY law requires the Commissioner of the Department of Economic Development (DED) to prepare an annual report to the governor and the legislature. START-UP NY regulations provide that the date for submission of the annual report is April 1.

## 2014 Report Overview

START-UP NY was enacted on June 21, 2013, and regulations were adopted and filed with the New York State Department of State on October 23, 2013 with the program and benefits officially beginning January 1, 2014.

Last year was the start-up year for START-UP NY, with the successful completion of a host of legal and administrative requirements including the development of campus plans, the approval of such plans and the beginning of the business application process consuming much of the first year of operation. The first Tax-Free Areas sponsored by participating colleges and universities were designated on March 3, 2014. The first businesses were admitted into START-UP NY in May and the first company to establish operations in a Tax-Free Area did so on May 12, 2014.

In 2014, 62 colleges and universities were approved to participate in START-UP NY, designating 356 Tax-Free Areas statewide. Forty-seven of these institutions are public, while 15 of the sponsors are private colleges or universities. Fifty-four businesses were approved to participate in START-UP NY in 2014 and have committed to creating 2,085 jobs and investing over \$91 million in their first five years in the program.

## 2014 College and University Participation

In order to participate in START-UP NY, eligible academic institutions are first required to develop a plan that includes a description of the vacant land or property to be designated as tax-free, a description of the institution's academic mission, and a description of the type of companies and industries it is seeking to attract. Once the plan is approved by the Commissioner of DED, colleges are eligible to begin accepting applications from companies.

Initial college participation in START-UP NY has been very strong, especially when considering this is the first broad scale government-sponsored incentive program that requires higher education participation. Sixty-two colleges and universities were approved in 2014, with an additional four approved in the early part of 2015 and 17 institutions with pending applications.

### 2014 Approved Colleges & Universities

	Approved 2014	Approved 2015	Pending
<b>Public Colleges &amp; Universities</b>	<b>47</b>	<b>2</b>	<b>13</b>
Upstate	40	1	8
Downstate	7	1	5
<b>Private Colleges &amp; Universities</b>	<b>15</b>	<b>2</b>	<b>4</b>
Upstate	9	2	4
Downstate	6	0	0
<b>Total Colleges &amp; Universities</b>	<b>62</b>	<b>4</b>	<b>17</b>
Upstate	49	3	12
Downstate	13	1	5

In 2014, 72 percent of all eligible State University of New York (SUNY) and City University of New York (CUNY) schools were approved for the program, 79 percent of which are upstate<sup>1</sup>, the primary geographic focus of the START-UP NY program. A majority, 37, of the approved institutions are located in urban areas of the state, while 25 are in rural areas<sup>2</sup>.

### 2014 Approved Colleges & Universities – Regional Breakdown

Region	Private	SUNY Four Year Colleges and Universities	SUNY Community Colleges	CUNY
Capital Region	1	2	2	0
Central NY	0	4	3	0
Finger Lakes	2	2	3	0
Long Island	1	2	0	0

<sup>1</sup> “Upstate New York” means all counties in New York State except Nassau, Suffolk, and Westchester counties, and the counties of New York City (New York, Queens, Kings, Richmond and Bronx)

<sup>2</sup> Urban population >= 20,000; Rural population < 20,000

Mid-Hudson	4	1	4	0
Mohawk Valley	1	3	2	0
New York City	2	1	0	4
North Country	1	3	2	0
Southern Tier	1	2	2	0
Western NY	2	4	1	0
<b>TOTALS</b>	<b>15</b>	<b>24</b>	<b>19</b>	<b>4</b>

The colleges participating in START-UP NY represent a diverse selection, from large research institutions like the University at Buffalo, Binghamton University and Stony Brook University, to smaller liberal arts colleges like Mount Saint Mary College and Canisius College. Each college has developed a plan that will advance its own mission, how it will benefit their local economy as well as the state's, and form a link between academia and business.

The 62 colleges and universities approved for START-UP NY in 2014 created 356 Tax-Free Areas, consisting of 4,167,162 square feet (ft<sup>2</sup>) and 1,847 acres for new or expanding businesses to operate on or near campus.

#### Private Institutions: Designated Space

Location	Universities	Tax-Free Areas	Space Allocated (ft <sup>2</sup> )	Space Remaining (ft <sup>2</sup> )
<b>Upstate</b>	<b>9</b>	<b>23</b>	<b>401,714</b>	<b>1,998,286</b>
<b>Downstate</b>	<b>6*</b>	<b>14</b>	<b>83,685</b>	<b>516,315</b>
Bronx	0	0	-	75,000
Kings	1	2	12,500	62,500
Nassau	1	1	6,721	68,279
New York	2	3	23,241	51,759
Queens	0	0	-	75,000
Richmond	0	0	-	75,000
Suffolk	0	0	-	75,000
Westchester	3	8	41,223	33,777

\*NYU has locations in both New York County and Kings County which is why the county totals add to 7 but only 6 institutions are listed.

In 2014, 83,685 ft<sup>2</sup> of space at six institutions has been applied against the 600,000 ft<sup>2</sup> limit for private universities and colleges downstate, creating 14 Tax- Free Areas; and 401,714 ft<sup>2</sup> of the available 2.4 million ft<sup>2</sup> limit for private universities located upstate has been designated at nine institutions, creating 23 Tax-Free Areas for a total of 37 Tax-Free Areas.

## 2014 Approved Business Participation

In 2014, the State received a total of 92 applications from businesses considering participation in the START-UP NY program. The first businesses were approved for participation on May 7, 2014. Of the 92 applications received in 2014, 54 were approved in 2014, 26 were approved in 2015 and 12 businesses withdrew their applications.

Over a five year time period, the 54 businesses approved in 2014 have committed to creating at least 2,085 jobs and investing over \$91 million. Of these, 33 are businesses new to New York, meaning they are start-up businesses or existing businesses locating to New York State for the first time. Twenty of these new businesses located to the Tax-Free Areas in 2014, resulting in the creation of 72 jobs through December 31, 2014 and committing to 679 total new jobs projected over five years. These new companies reported investing \$622,013 as of December 31, 2014.

Twenty-one of the 54 businesses approved in 2014 are existing New York State businesses that are expanding into Tax-Free Areas and project creating 1,154 new jobs over five years. By the end of 2014, 10 of these businesses had already moved into the Tax-Free Areas and reported the creation of four jobs while investing \$1,061,941. It is important to note that only the activity associated with the expansion of these businesses is eligible for the START-UP NY tax benefits. As a matter of course, the State's Department of Taxation & Finance will audit the credit claims of participating businesses in order to ensure that companies are in compliance.

In 2014, a total of 30 companies located to and began operating in START-UP NY Tax-Free Areas. These companies reported creating 76 jobs, investing \$1,683,956 directly into local economies, and utilizing \$56,560 in tax benefits.

### 2014 Businesses – Five Year Commitments

Type of Business	Number of Companies	5 Year Job Commitment	5 Year Investment Commitment
Existing, Expanding NYS Businesses	21	1,154	\$ 62,858,292
Start-up Businesses	24	480	\$ 24,124,900
Businesses Locating to NYS from other state	7	177	\$ 3,471,780
Businesses Locating to NYS from other country	2	274	\$ 869,300
<b>Totals</b>	<b>54</b>	<b>2,085</b>	<b>\$91,324,272</b>

### 2014 Businesses – Locating to Tax-Free Areas

Type of Business	Number of Companies	Reported Net New Jobs Created	Reported Investment	Reported Benefits Received
Existing, Expanding NYS Businesses	10	4	\$1,061,941	\$0
Start-Up Businesses	15	22	\$284,268	\$3,274
Businesses Locating to NYS from other state	4	34	\$234,218	\$53,286
Businesses Locating to NYS from other country	1	16	\$103,529	\$0
<b>Totals</b>	<b>30</b>	<b>76</b>	<b>\$1,683,956</b>	<b>\$56,560</b>

The amount of tax credit benefits utilized by businesses in 2014 reflects the fact that the program is still in its early stages. The amount also reflects the program's effective accountability measures – because most businesses certified in 2014 will not have the six months in the program required to meet the definition of a new job, the program's key eligibility threshold, most will not begin to fully realize program benefits until 2015. Additionally, for the same reason, most employees may not realize the personal income tax exemption until they have been employed full-time for the six months legally required to receive the exemption.

### Approved Business Participation – Type of Business

Consistent with the focus and strategies of the approved academic institutions' plans, approved businesses represent key technology industries, including biotechnology research and development, advanced manufacturing, advanced medical equipment, information technology, and systems and software development. Longer term, we believe these businesses are essential in the move to an increasingly high-tech, innovation focused 21<sup>st</sup> century economy and will further strengthen existing innovation ecosystems across the state, while also establishing new ones.

### Business Industry Type

Number of Businesses	Business Industries
1	Alternative Energy
2	Analytical Laboratory Instrument Manufacturing
1	Audio and Video Equipment Manufacturing
4	Biotechnology
2	Computer Systems Design Services
2	Custom Computer Programming Services
3	Data Processing, Hosting, and Related Services
1	Electrical Equipment and Component Manufacturing

Number of Businesses	Business Industries (continued)
2	Electro-medical and Electro-therapeutic Apparatus Manufacturing
1	Engineering Services
1	Ground or Treated Mineral and Earth Manufacturing
1	High Technology
1	Information Technology
1	Internet Publishing and Broadcasting and Web Search Portals
1	In-Vitro Diagnostic Substance Manufacturing
1	Manufacturer - pharmaceuticals
1	Manufacturing
1	Manufacturing - Electronic Computer
1	Manufacturing - Surgical Appliance & Supplies
1	Manufacturing- Machine Tool
1	Medical Laboratories
1	Other Apparel Knitting Mills
1	Other Measuring and Controlling Device Manufacturing
2	Process, Physical Distribution, and Logistics Consulting Services
1	Research and Development (R&D)
3	R&D in Physical, Engineering, and Life Sciences (except Biotechnology)
1	Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing
6	R&D for Biotechnology
1	Security Systems Services (except Locksmiths)
2	Software Development
2	Software Publishers
1	Surgical Appliance and Supplies Manufacturing
1	Web based software service for medical collaboration
1	All Other Basic Inorganic Chemical Manufacturing
1	All Other Miscellaneous Nonmetallic Mineral Product Manufacturing

Of the approved businesses, ten are biotechnology companies, five are software, computer or information technology companies, and 15 companies, the largest group, are manufacturers. The manufacturing companies are building everything from surgical appliances and in-vitro diagnostic materials, to audio video equipment and pharmaceuticals.

### Approved Businesses – Geographical Breakdown

The businesses approved in 2014 have located to various Tax-Free Areas throughout the state, with 70 percent located in Upstate New York and 30 percent downstate. The chart below represents the regional locations of 80 businesses that applied in 2014 that were approved to participate in START-UP NY.

## 2014 Approved Businesses – Regional Distribution

	Businesses Approved in 2014	Businesses Approved in 2015	Regional Total
Capital Region	2	1	3
Central New York	0	3	3
Finger Lakes	3	1	4
Long Island	10	5	15
Mid-Hudson	2	0	2
Mohawk Valley	0	0	0
New York City	6	1	7
North Country	0	2	2
Southern Tier	7	0	7
Western New York	24	13	37
<b>Total</b>	<b>54</b>	<b>26</b>	<b>80</b>

## Appendix A: START-UP NY Program Overview

### Colleges & Universities

New York State is home to some of the most acclaimed and prestigious colleges and universities in the nation. START-UP NY connects companies with academic institutions that align with their research and business development needs. SUNY, CUNY, community colleges and independent colleges and universities all have the opportunity to sponsor Tax-Free Areas. Appendix B lists the sponsoring institutions and the location, square footage and acreage of the Tax-Free Areas. To find out more about a college's plan and their Tax-Free Areas follow the link in the table to go to the START-UP NY page.

#### SUNY

Every SUNY community college and four-year college or university can designate the following eligible land and space as a Tax-Free Area:

- Vacant land on the SUNY campus (for every campus outside of New York City);
- Vacant space in buildings on the SUNY campus (for every campus outside of NYC);
- Any NYS incubator with a bona fide affiliation to the campus, university or college (for every campus outside of New York City, other than Downstate Medical Center); and
- Up to 200,000 square feet within one mile of a campus (for every campus north or west of Westchester County), or further than one mile, with approval from Empire State Development (ESD).

In addition, Downstate Medical Center, Fashion Institute of Technology, Maritime College and College of Optometry are eligible to seek designation of vacant land and space on their respective campuses from the START-UP NY Approval Board.

#### CUNY

CUNYs are able to designate as Tax-Free Areas vacant land and space on a campus in each borough of New York City (Manhattan, Bronx, Queens, Brooklyn and Staten Island) in an area determined by the Commissioner of DED to be economically distressed. CUNY Tax-Free Areas may include:

- Vacant land on the CUNY campus;
- Vacant space in buildings on the CUNY campus; and
- Any NYS business incubator with a bona fide affiliation to the campus, university or college.

With approval from the START-UP NY board, CUNYs are eligible to seek designation of additional vacant land or space on their campuses.

#### Private Colleges

The program also provides 3 million square feet (with the potential of another 600,000 more) of Tax-Free Areas primarily dedicated to private colleges and universities on land north or west of Westchester County, to be allocated by the START-UP NY program board (consisting of three members with significant experience in academic-based entrepreneurship appointed by the Governor, the Speaker of the Assembly and the Temporary President of the Senate) in a

manner that ensures regional balance and balance among eligible rural, urban and suburban areas in the state.

For private colleges and universities north or west of Westchester County, the Tax-Free Areas can include vacant land and vacant space on- or off-campus, as well as any NYS incubator with a bona fide affiliation to the campus, university or college.

Of these 3 million square feet, 75,000 square feet may be allocated in each of the following: Nassau County, Suffolk County, Westchester County, Brooklyn, Bronx, Manhattan, Queens and Staten Island. Private colleges and universities in New York City and Westchester, Suffolk and Nassau Counties, as well as SUNY and CUNY campuses not specifically designated, may apply to sponsor these Tax-Free Areas on college campuses. Once the 75,000 square foot cap is reached in these counties and boroughs, the board may designate up to an additional 75,000 square feet in each. Therefore, an additional 600,000 square feet of space may be available in these counties and boroughs.

### Strategic State Assets

The 3-member START-UP NY Approval Board may designate up to 20 Strategic State Assets as Tax-Free Areas. These must be state-owned vacant land, state-owned vacant facilities or state-owned facilities that are in the process of closing and becoming vacant. Each will be affiliated with a SUNY, CUNY or independent college or university to attract new employers and new jobs and transform the site into a regional economic engine. In addition, the START-UP NY Approval Board may approve the land or space of four closed correctional facilities – Butler Correctional Facility, Chateaugay Correctional Facility, Monterey Shock Incarceration Correctional Facility, and Mount McGregor Correctional Facility – as Tax-Free Areas upon the application of a university to include such land or space in its plan.

## Businesses

Companies participating in START-UP NY may be exempt from income and other business taxes or franchise fees, and pay no sales tax or property tax for 10 years. Employees in participating companies filling new jobs will pay no income taxes for the first five years. For the second five years, such employees will pay no taxes on income up to \$200,000 of wages for individuals, \$250,000 for a head of household and \$300,000 for taxpayers filing a joint return. The number of net new jobs eligible for personal income tax benefits will not exceed 10,000 new jobs per year.

## Eligibility

In order to locate into a START-UP NY Tax-Free Area, a business needs to be aligned with or further the academic mission of the campus, college or university sponsoring the Tax-Free Area. Businesses participating in the program will need to have positive community and economic benefits. Every business must create and maintain net new jobs in order to participate. Businesses must:

- Be a new start-up company;
- Be a company from out-of-state that is relocating to New York State; or
- Be an expansion of an existing New York State company (For example: a company creating a new line of business or opening a new advanced manufacturing facility as long as it can demonstrate that it is creating new jobs and not eliminating existing jobs).

In addition, start-ups that graduate from certified New York State Business Incubators will be eligible to enter vacant Tax-Free Areas and receive benefits under the program.

In New York City, Long Island and Westchester County, businesses must be start-ups or high-tech companies. Statewide, the program excludes certain types of businesses, including retail and wholesale businesses; restaurants and hospitality; professional practices like law firms and medical practices; and energy production and distribution companies.

Companies will be eligible to apply for and enter into the program until December 31, 2020, at which time ESD will prepare an evaluation on the effectiveness of the program in order to determine whether eligibility should be extended.

## Bans Competition with Existing Businesses

Under the START-UP NY program, businesses that might compete directly with other local businesses outside the Tax-Free Area for the same customers may be declared ineligible to participate after a comprehensive review.

## Protections Against Fraud

START-UP NY includes strong provisions to protect against fraud. Businesses have to submit certification to ESD as to their eligibility to participate in the program, and fraudulent misrepresentations in connection with a business' participation in the program may be prosecuted as a felony.

The legislation also includes strict provisions to guard against abuses such as shifting jobs among related entities or “shirt changing,” when a company simply reincorporates under a new name and claims its existing employees are now new jobs. In addition, START-UP NY includes measures to prevent self-dealing and conflicts of interest. In cases of fraud, the State will be empowered to claw-back benefits granted to the business.

Companies that do not meet the terms of the program including meeting their job creation targets may have their benefits reduced, or be suspended or terminated from the program. ESD will have the authority to review company data to ensure that jobs have been created and maintained, and to end participation by companies that have not created net new jobs. ESD will be required to publish a comprehensive annual report to enable the public to evaluate the programs impact.
