INDEPENDENT AUDITORS' REPORT

The Authority Members
New York Job Development Authority:

Report on the Combined Financial Statements

We have audited the accompanying combined financial statements of New York Job Development Authority (the "Authority"), a component unit of the State of New York, as of and for the years ended March 31, 2016 and 2015, and the related notes to combined financial statements, which collectively comprise the Authority's combined financial statements as listed in the table of contents.

Management's Responsibility for the Combined Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Authority's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the net position of New York Job Development Authority as of March 31, 2016 and 2015, and the respective changes in net position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 9 be presented to supplement the basic combined financial statements. Such information, although not a part of the basic combined financial statements, is required by the Governmental Accounting Standards Board ("GASB"), who considers it to be an essential part of financial reporting for placing the basic combined financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic combined financial statements, and other knowledge we obtained during our audit of the basic combined financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 13, 2016 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

In accordance with Government Auditing Standards, we have also issued our report dated June 13, 2016 on the Authority's compliance with Section 201.3 of Title Two of the Official Compilation of Codes, Rules, and Regulations of the State of New York. The purpose of that report is to provide an opinion as to the Authority's compliance with investment guidelines contained therein. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

NEW YORK JOB DEVELOPMENT AUTHORITY

Management's Discussion and Analysis

March 31, 2016 and 2015

Our discussion and analysis of the New York Job Development Authority's ("JDA" or "Authority") financial performance provides an overview of the Authority's financial activities for the year ended March 31, 2016. Please read it in conjunction with the Authority's combined financial statements.

Overview

During the year ended March 31, 2016, the Authority continued its mission to spur job growth and capital investment in New York State by using authority granted to it and by leveraging State-guaranteed bonds to support low interest loans to manufacturers and other targeted industries throughout New York State. The loan program provides financing to encourage the growth of manufacturing and other private sector business in the State without requiring appropriation of taxpayers' funds.

Since 1995, the Authority has done business as Empire State Development ("ESD") and has been administratively consolidated with the New York State Urban Development Corporation ("UDC"). The Authority experienced financial difficulties in the mid-1990's. As a result, from 1997 through March 31, 2004 the Authority received from UDC, also doing business as ESD, an annual operating transfer to assist in meeting its legal obligations. No assistance was required in the years ended March 31, 2016 and 2015 and no assistance is expected to be required in the next fiscal year.

As a result of improvements in collections of the reserved loans in the loan portfolio, the absorption of personnel costs by UDC, and the consolidation of the net position of New York Liberty Development Corporation ("NYLDC"), Brooklyn Arena Local Development Corporation ("BALDC") and New York Transportation Development Corporation ("NYTDC"), the Authority has achieved a net position balance of $101.3 million at March 31, 2016. NYLDC was created in 2002 to provide a vehicle for the State to issue Liberty Bonds in the wake of the terrorist attacks of September 11, 2001. BALDC was created in November 2008 to finance certain components of the Atlantic Yards Land Use Improvement and Civic Project. NYTDC was created in 2015 for the public purpose of relieving and reducing unemployment, promoting and providing for additional and maximum employment, bettering and maintaining job opportunities, and lessening the burdens of government of the State of New York and the New York Job Development Authority.

In October 2003, the Authority caused the creation of Empire State Local Development Corporation ("ESLDC"). ESLDC has state-wide jurisdiction and was created to carry out various economic development initiatives through the use of pass through grants received from outside sources.

In June 2010, the Authority authorized the creation of Canal Side Local Development Corporation ("CSLDC") and the certificate of incorporation was filed in February 2012. CSLDC was created to help facilitate the financing of the Canal Side Land Use Improvement Project in Buffalo.

Liquidity

The Authority's cash and equivalents, restricted cash and temporary investments totaled approximately $128.3 million and $132.2 million at March 31, 2016 and 2015, respectively. The decrease is primarily due to $3.6 million in debt service disbursements, $3.5 million in loan payments on two new loans, and $0.3 million in general and administrative expenses, offset by $3.5 million in loan and lease principal and interest collections.

The Authority's loans receivable balance totaled $13.5 million and $11.4 million at March 31, 2016 and 2015, respectively. The increase is primarily due to the issuance of $3.5 million in new loans and $0.1 million in deferred loan income amortization offset by $1.3 million in principal loan collections and an increase of $0.2 million in loan loss reserves.

Approximately 50% of the consolidated net position balance results from the net fees earned by NYLDC over the last several years.

Cash generated from operations exceeded the Authority's operating requirements for the year ended March 31, 2016 by approximately $1.8 million, primarily due to the receipt of $1.8 million in bond fees, of which $0.3 million was for the payment of bond counsel expenses.

Capitalization

As of March 31, 2016, the Authority had approximately $6.2 million in outstanding bonds. Total debt decreased by approximately $3.1 million through scheduled principal maturities of bonds.

Bond Ratings

As of March 31, 2016, the Authority's outstanding debt had the following ratings from the following two rating agencies:

	Ratings	
Issue	FITCH	S&P
Special Purpose Fixed Rate Bonds Series '04 B	AA+	AA+

Change in Net Position

The change in net position for the fiscal year ended March 31, 2016 amounted to $2 million compared with $21.8 million in fiscal 2015. The decrease is primarily due to a decrease in bond and note fee income of $19.5 million and other revenue of $0.3 million.

Revenue

Operating revenue approximated $7.4 million in fiscal 2016 compared to $24.6 million in fiscal 2015. The decrease is primarily due to a decrease in bond and note fee income related to a reduction in bond issuances by NYLDC and the receipt of a non-recurring Payment in Lieu of Taxes (PILOT) in the prior fiscal year.

Loan interest decreased by approximately $0.2 million as a result of the principal payoff of approximately $2.7 million of loan and financing lease balances.

Grant income increased by $2.7 million due to grant revenue received by ESLDC related to projects at the Brooklyn Navy Yard.

Bond and note fee income decreased by approximately $19.5 million primarily due to the fact that in fiscal 2015 there was a $9.3 million fee earned on the sale of Liberty Bonds and a PILOT payment of $11.7 million from Astoria Energy, LLC, offset by a $0.5 million fee earned on the sale of Liberty Bonds related to the FC Hanson Office Associates, LLC project, $0.1 million fee earned on the sale of Liberty Bonds related to the Goldman Sachs Headquarters and $0.9 million fee earned on the sale of Bonds related to the Terminal One Group Association, L.P. Project.

Other revenue decreased by approximately $0.2 million due to a decrease in recoveries against loan loss reserves.

Nonoperating revenue increased by $0.2 million due to an increase in investment income as a result of slightly better investment rates throughout the year.

Operating Expenses

Operating expenses for the fiscal year ended March 31, 2016 were $5.7 million compared with $2.8 million in the fiscal year ended March 31, 2015. The increase is primarily due to the fact that grant expense for ESLDC increased by $2.7 million and provision for loss on loans receivable, loan guarantees and financing leases increased by $0.3 million. Grant expense represents immediate disbursement of funds received from the Port Authority because ESLDC is merely a pass through. There is no effect on net income.

Interest on bonds decreased by $0.2 million due to the scheduled maturity of certain bonds.

The Authority's financial position remains strong. No assistance has been received from UDC since the fiscal year ended March 31, 2004.

In fiscal year 2016, there were two new loans issued in the total amount of $3.5 million. A $3.0 million loan was issued to Mero Realty Inc. for the purpose of purchasing a facility located in Amityville, New York (the "Real Estate Project"). The total cost of the Real Estate Project was $6.8 million. A $0.5 million loan was issued to Rising Sun Woodworking, Inc. to be used to take out forty percent (40%) of the loan provided to refinance an acquisition of real estate in Cutchogue, New York. The total cost of the project was $1.6 million.

There were approximately $27.2 million in loans approved but not closed.

In the coming fiscal year, no events are anticipated that would have a significant negative effect on the financial position of the Authority. It is expected that the continued marketing of the JDA program throughout the State will provide additional financing opportunities to businesses.

Note 1 - Corporate Background and Activities

(a) General

New York Job Development Authority (the "Authority" or "JDA"), doing business as Empire State Development ("ESD"), is a public benefit corporation organized and existing under the laws of the State of New York (the "State"). The Authority's mission is to spur job growth and capital investment in New York State by using authority granted to it and by leveraging State-guaranteed bonds to support low interest loans to manufacturers and other targeted industries throughout New York State. As a public benefit corporation, the Authority is tax exempt. The Authority is a component unit of the State and, as such, its combined financial statements are included in the State's general purpose financial statements.

(b) Activities

The principal activity of the Authority is providing business and industry loans, described in the New York Job Development Authority Act as "Special Purpose Loans." All such loans are made to entities with operations in the State and are provided for real estate acquisition, construction, rehabilitation or improvement or machinery and equipment. The Authority requires security for the loans with the underlying assets and other available collateral.

The Authority finances these activities through recycled loan proceeds and the issuance of State guaranteed bonds and notes (the "Bonds") limited by the Constitution of the State and applicable legislation to an aggregate principal amount of $900,000,000 outstanding at any time. To date, enabling legislation allows an aggregate principal amount of $750,000,000 to be outstanding at any time.

The guarantee of the Bonds by the State is authorized by the New York Job Development Authority Act, as amended by Section 1813 of Title 7 Article 8 of the Public Authorities Law and Section 8 Article X of the Constitution of New York State. Under these provisions, if the Authority fails to pay when due, the principal or interest on the Bonds, or, if sued by any holder of the Bonds, the State Comptroller must set apart from the first revenues thereafter received from any source, applicable to the General Fund of the State, a sum sufficient to pay such principal and interest, and shall so apply the monies thus set apart. Effectively, the State is subrogated to the rights of the bondholders. The net position of the fund is considered restricted.

Note 1 - Corporate Background and Activities, Continued

(b) Activities, Continued

The Authority has the power to create local development corporations under Section 1804 of the New York Job Development Authority Act and Section 1411 of the New York Not-for-Profit Corporation Law. The Authority has created five Local Development Corporations: New York Liberty Development Corporation ("NYLDC"), Empire State Local Development Corporation ("ESLDC"), Brooklyn Arena Local Development Corporation ("BALDC"), Canal Side Local Development Corporation ("CSLDC"), and New York Transportation Development Corporation ("NYTDC").

The Authority substantially controls the operations of the Local Development Corporations. Under Governmental Accounting Standard Board (GASB) Statement No. 39 - "The Financial Reporting Entity," NYLDC, ESLDC, BALDC, CSLDC and NYTDC are considered blended component units of the Authority, and their assets, liabilities, and results of operations are combined with the operations of the Authority for financial reporting purposes.

Note 2 - Summary of Significant Accounting Policies

(a) Basis of Accounting

The Authority is an enterprise fund that follows the economic resource measurement focus and the accrual basis of accounting.

The Authority complies with all applicable pronouncements of GASB as well as with authoritative pronouncements applicable to non-governmental entities (e.g. Financial Accounting Standards Board Statements) that do not conflict with GASB pronouncements.

The Authority's combined financial statements are presented consistent with enterprises whose principal activities are considered a financing enterprise.

(b) Use of Estimates

The preparation of combined financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the combined financial statements and accompanying notes. Accordingly, actual results could differ from those estimates.

(c) Cash and Equivalents

Cash and equivalents include cash deposits with banks and highly liquid temporary investments with original or remaining maturities of 90 days or less.

Note 2 - Summary of Significant Accounting Policies, Continued

(d) Investment Securities

Investment securities consist of temporary investments of available cash and debt service reserve funds in marketable securities. Investment securities are reported at fair value in the combined statements of net position, and investment income, including changes in fair value, is reported as nonoperating revenue in the combined statements of revenue, expenses and changes in net position.

The fair value of investment securities, which include United States Government and Federal agency obligations, and obligations of state and local governments is generally based on quoted market prices. Interest earning investment instruments, including time deposits and repurchase agreements with maturities of one year or less, are reported at amortized cost. Investment income also includes realized gains and losses from disposition of investments on a specific identification basis. Collateral for these investments is held in the Authority's name by financial institutions as custodians. Investment securities that are not required by bond indentures to be held by independent trustees are maintained and held by the New York State Department of Taxation and Finance.

(e) Loans and Financing Leases Receivable

Loans and financing leases are generally reported at their principal amounts outstanding, net of allowances for possible credit losses. The Authority lends funds for the acquisition of land and buildings which are generally repayable over 15 to 20 years. Loans to fund machinery and equipment are generally repayable over 7 to 10 years. Generally, all loans represent second mortgages or other subordinated positions. Interest revenue on loans and financing leases is credited to interest income based on loan principal amounts outstanding at appropriate interest rates. Interest is not accrued on loans which are delinquent three or more months and which management considers uncollectible. In addition, the Authority provides financing leases for property previously acquired in foreclosure. Financing leases generally require repayment over periods ranging from 1 to 20 years.

(f) Allowance for Possible Credit Losses and Estimated Loan Losses

The allowance for possible credit losses provides for risks of losses inherent in the credit extension process. The Authority maintains this allowance on a specific and general basis at levels considered adequate to meet present and future losses on loans and financing leases. This evaluation encompasses business and economic conditions, the character, quality and performance of the portfolios, availability of collateral and the risks inherent in these loans. Accordingly, these estimates could change in the near term.

(g) Foreclosed Properties

The Authority may hold title to properties acquired in satisfaction of loans, including in-substance foreclosures. Such amounts, if any, are carried at the lower of cost or estimated fair market value.

Note 2 - Summary of Significant Accounting Policies, Continued

(h) Grant Revenue and Expense

ESLDC administers certain grant funds from various sources. These grants are awarded for specifically designated projects and are distributed directly to the projects. ESLDC records revenue upon disbursement of the grants to grantees. Grant advances not disbursed to grantees are recorded as unearned income.

NYLDC recognizes grant expense upon the disbursement of grants to grantees.

(i) Subsequent Events

The Authority has evaluated subsequent events through the date of the report which is the date the combined financial statements were available to be issued.

Note 3 - Local Development Corporations

(a) New York Liberty Development Corporation

In August 2002, at the request of the Governor, the Authority caused the creation of New York State Liberty Development Corporation ("NYLDC"). NYLDC was created as a conduit for the issuance of qualified New York Liberty Bonds ("Liberty Bonds") and such other non-federally tax-exempt obligations as may be appropriate. Bond proceeds are used to finance private projects primarily in the New York Liberty Zone located in lower Manhattan. NYLDC receives fees in connection with each bond or note issuance. In certain instances, the bond issuance fees earned are shared with other entities. The summarized statements of net position of NYLDC as of March 31, 2016 and 2015 are as follows:

	2016	2015
Cash and equivalents	$ 2,131,176	1,534,703
Temporary investments in marketable securities	48,904,959	48,804,717
Accounts payable and accrued expenses	(19,562)	-

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Authority Members
New York Job Development Authority:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the combined financial statements of New York Job Development Authority (the "Authority"), a component unit of the State of New York, which comprise the combined statement of net position as of March 31, 2016, and the related combined statements of revenue, expenses and changes in net position and cash flows for the year then ended, and the related notes to combined financial statements, and have issued our report thereon dated June 13, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the combined financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the combined financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's combined financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's combined financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Our responsibility is to express an opinion on the compliance of the Authority's investment program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the investment program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the investment program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on Investment Program

In our opinion, the New York Job Development Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its investment program for the year ended March 31, 2016.

Report on Internal Control Over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirement that could have a direct and material effect on the investment program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the investment program and to test and report on internal control over compliance in accordance with Section 201.3 of Title Two of the Official Compilation of Codes, Rules, and Regulations of the State of New York, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Section 201.3 of Title Two of the Official Compilation of Codes, Rules, and Regulations of the State of New York. Accordingly, this report is not suitable for any other purpose.
