APPLICATION/INQUIRY FORM FOR ACCESSING
NEW YORK STATE HIGH PERFORMANCE COMPUTING RESOURCES

New York State is a global leader in computational resources and talent in the areas of simulation-based engineering and high performance computing. Empire State Development's Division of Science, Technology & Innovation (NYSTAR) supports the High Performance Computing Consortium (HPC^{NY}) in order to leverage these resources, helping New York State companies gain competitive advantage through cost-effective access to advanced computing assets and expertise.

HPC^{NY} offers support to industry to solve business, technology, and R&D needs:

- Provides access to its high-speed networks and high-performance platforms, enabling industrial entities and research groups to make scientific breakthroughs and to accelerate the engineering and development path of complex, ground-breaking designs to reliable, accurate, innovative product and process performance that can provide competitive advantage.

- Provides education, outreach and training in simulation-based engineering science. In addition to other resources, HPC^{NY} also offers web-based tutorial and training sessions and user support.

Complete this form to apply for access to high performance computing assets.

Company/Institution Name: _____

Address: _____   Contact Name:_____

City: _____   Contact Email:_____

State: _____   Contact Phone:_____

Zip: _____

Briefly describe the project you plan to undertake or challenge you would like to address using high performance computing resources. Submit additional pages as necessary.
