

ATLANTIC YARDS CONSTRUCTION UPDATE SUPPLEMENTAL REPORT

This is a Supplemental Report to the previously issued two week look – ahead regarding upcoming construction activities at Atlantic Yards covering the period of January 21 – February 3, 2013.

The following section has been modified to include new information:

B2

New Information:

During excavation at the site, the foundation contractor uncovered an unknown boiler that was previously buried below ground by others. Samples collected from boiler insulation suspected to be asbestos containing material (ACM) confirmed the presence of asbestos.

An emergency notification was made to the New York City Department of Environmental Protection (NYCDEP), and emergency project approval number EN-0098-13 was issued by the NYCDEP.

The abatement of the boiler ACM is scheduled to occur on Monday January 28th and Tuesday January 29th.

Prior to the abatement, the necessary asbestos warning signs will be posted at the site. Properly protected and certified workers will construct a remote decontamination tent in close proximity to the boiler. A tent enclosure equipped with negative pressure ventilation will be constructed around the boiler. The ACM will be removed by wet methods and loaded into bags within the containment tent for proper off-site disposal. Third-party air monitoring will be conducted during and following completion of the abatement activities. All abatement and monitoring procedures will be conducted in accordance with NYCDEP and New York State Department of Labor asbestos regulations. Upon completion of the abatement and prior to final air clearance the enclosure, all tent surfaces shall be wet cleaned, High-Efficiency Particulate Air (HEPA) vacuumed, and lightly encapsulated. Following receipt of the clearance from the third party air monitor, the containment tent and decontamination tent will be collapsed and properly disposed with all abated material.

Work will take place during the following hours 7am to 3pm: work Monday January 28th and Tuesday January 29th.
