

Please see the following supplement to the May 7, 2012 Atlantic Yards Construction Update:

Approximately three (3) parking spaces along Dean Street directly across from the gate at Dean and 6th Avenue will be taken for construction purposes, effective Monday, May 14, 2012. This became necessary after the construction fence and gate located in this area were relocated to outside the curb line to allow for the installation of the new curb, sidewalk and bollards. The removal of the spaces is necessary in order to maintain the turning radius for truck deliveries into and out of this gate. At completion a new fence will be installed in board of the new curb. It is anticipated that this condition will be in place for two months during which time all work will be completed, weather permitting and barring any unforeseen conditions.
